

ADVISORY No. 10 s. 2024

January 4, 2024

In compliance with DepEd Order (DO) No. 8, s. 2013
This advisory is issued not for endorsement per DO 28, s. 2001,
but only for the information of DepEd Officials,
Personnel/staff, as well as the concerned public

**INVITATION TO THE 5-DAY RESEARCH WRITING, SAMPLING TECHNIQUES, AND
STATISTICAL ANALYSIS IN-DEPTH TRAINING WORKSHOP**

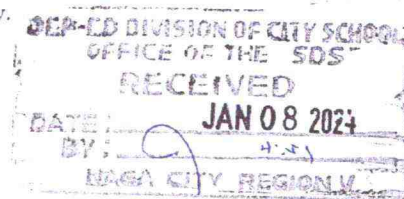

2024 AI, Data Science, Writing Research Webinars will conduct a 5-day Online Workshop: Research Writing, Sampling Techniques, and Statistical Analysis In-depth Seminar Workshop on January 24-28, 2024 via Zoom.

The course objectives are to learn how to write and structure a research paper, enable the participants to identify the right sampling techniques in line with the research problem and research design, learn how to interpret statistical data using freeware (JASP and JAMOV), and learn how to create a valid and reliable questionnaire.

The registration fee is P3,500.00 per participant. To register, copy-paste the link to your web browser: <https://forms.gle/N6Chca5C7uE3Gned6>. Detailed information and workshop inclusions are found at <https://forms.gle/ZMavrKNSGcrV3gga7>.

Participation is on a voluntary basis only.

Subject: 5-day Online Workshop: Research Writing, Sampling Techniques and Statistical Analysis In-depth Seminar Workshop - January 24 to 28, 2024

Research Writing, Sampling Techniques and Statistical Analysis In-depth Training Workshop
- January 24 to 28, 2024 via ZOOM

Research writing has been an integral part of our daily life. Whether you are working in the public sector, private sector and academe, the research writing process is the same. In fact the whole research process is constant across the sector. In the research writing portion of this workshop, participants will learn how to structure a research paper, write a statement of the problem, write literatures/citation and many more. On the second part of research writing, participants will engage to a whole-day writeshop.

The third day of the workshop will deal with sampling Techniques, data collection and data preparation. On the last two days of workshop, participants will learn how to interpret data using JASP and JAMOWI (these are freewares).

Course Objectives:

1. Learn how to write and structure a research paper.
2. Enable participants on identifying the right sampling techniques in line to the research problem and research design.
3. Learn how to interpret statistical data using FREEWARES (JASP and JAMOWI).
4. Learn how to create a valid and reliable questionnaire.

Research Writing, Sampling Techniques and Statistical Analysis In-depth Training Workshop - January 24 to 28, 2024 (via ZOOM) -- P3500.00 (per participant). The registration fee includes digital handouts, datasets, installer of the software, digital certificates (of participation, completion, and attendance), recording of the webinar, and the learning experience. Scanned OFFICIAL RECEIPTS will be provided 4 days upon payment.

To register (copy-paste the link to your web browser): < <<https://forms.gle/N6Qhca5C7uEGGned6>>>

Note: To access the course outline, description, and program of activities, send us an email.

More information (payment details and workshop inclusions): <https://forms.gle/ZMxvrKNS6zrY5gga7>

We have maintained our position as the number one workshop provider in the fields of management, data science, qualitative analysis, research, and technical writing. We are pleasantly surprised to learn that 98.6% of our participants have successfully applied the skills acquired from our virtual and in-person workshops. This is further demonstrated by the impact of our recent in-person workshop in Davao City last July.

You know that we only capacitate people. No hidden agendas, just training.
