Dear Madam/Sir:

Greetings from Erovoutika!

Erovoutika International (Erovoutika) is a global company that offers training, seminars, research and development, robotics and automation competition, engineering and ICT consultancy. In partnership with Robotics Championship, Oradea Romania, ZMRobo China, and VRS Illinois US, we will be hosting a virtual edition, **ROBOLUTION2023: 2nd International Robotics and Automation Summit and Competition** on December 8 and 9, 2023 with a theme: "Unleashing Innovation: Navigating the Future with Robotics and Automation". Over the course of two days, attendees can look forward to a series of engaging activities, including robotics and automation seminars, workshops, competitions, and presentations. The competition encompasses these exciting categories: **ROBOSIM (virtual robot simulator)**, **ZMRobo Innovative Challenge**, **E-ROBOT (Line Following Robot Classic)**, **FREE-STYLE (innovative projects)**, **Cyber ROBO Challenge (Cybersecurity in Robotics & Automation)**. We have also secured the participation of esteemed international plenary speakers who will share their profound insights into the latest developments in robotics and automation. The registration for **Competition is FREE**. Before the event date, we will have a series of training for all the categories for **FREE**. Also, one of the highlights of the event is the approved CPD points Training for all the Professional Teachers and Engineers.

In light of this, we would like to invite all the teachers, students, and robotics hobbyists to join our virtual training and competition. We aim to bring together a diverse group of individuals to partake in the Philippines' first-ever virtual international summit and competition in the field of robotics and automation. We have also extended invitations to national government agencies, private sector organizations, and universities from various other countries.

Your support and participation would contribute significantly to the success of this event. Thank you for considering our request, and we look forward to your positive response.

# Calling all young innovators and road safety champions!

**Safer Schools is an innovation contest organized by the UP National Center for Transportation Studies to promote road safety around schools.**

**In the Philippines, road injuries is among the top leading causes of death, especially for children 5 to 19 years old (WHO, 2019). With proper intervention, death due to road injuries can be preventable. Safer Schools aims to contribute to this prevention of road injuries around schools in the Philippines and promote safer streets and schools, for Filipino children.**

Dear **Dr. Sadsad**:

Greetings!

Creotec Philippines Inc. invites your school to join our **3<sup>rd</sup> Creotec National MakeX Robotics Competition** on October 14, 2023 as our continuous effort to emphasize the importance of technology in education through robotics competitions. This is open not only to students but also to their coaches.

In relation to this, we would like to **request for an advisory** regarding the conduct of this robotics competition.

The competition has three categories and the details of each one is in the attachment.

The registration opens on August 25, 2023. There will be an orientation of coaches about the rules, mechanics and awards on August 25, 31, and September 2, 2023. This is open to all interested schools. The schools can register early so teams and coach(es) can join and be the first to prepare for the event.

The registration link is <https://forms.gle/BjbAy6MBq8Py8GGW6>.

There is **no registration fee** for all categories.

The champion team of each category will represent the Philippines in the 2023 MakeX World Robotics Championships in China in December 2023 with an **all-expense paid package** which includes **airfare, accommodation, food, and visa processing**.

For more information, you can contact me, Engr. Cristopher B. Tingcang, through any of the following:

### Competition Categories

#### Category 1: MakeX Starter Smart Links (Mission – Based Competition)

MakeX Starter is a multi-tasking competition program for students aged 6-13. The competition integrates the automatic stage and the manual stage, which greatly enhances fun and participation experience of the competition. The concept of multiple missions and the alliance cooperation design fully exercises the abilities of critical thinking and strategic planning of contestants, as well as improve the ability of communication and cooperation between alliance teams.

**Participant's Age Requirement: 6 – 13 years old  
(Elementary – Grade 7)**  
**Number of Participants: 2 students**  
**Number of Coach: 1 mentor**

Hardware Requirements: **2020 MakeX Starter Smart Links Competition Kit and Arena**  
Software Requirements: **mBlock 5**

#### Category 2: MakeX Explorer (Confrontation Mission – Based Competition)

MakeX Explorer is a confrontational competition program for elementary and junior high school students aged 8-15. This program fully integrates the essence of sports events and is highly interesting and a delight to watch.

The competition requires the contestants to design and build robots from scratch, which systematically develops the contestants' comprehensive abilities in robot design, mechanical construction, and programming. Also, the form of alliance confrontation improves the contestants' ability to solve imperative problems and strategic thinking.

**Participant's Age Requirement: 8 – 15 years old**  
**Number of Participants: 3 students**  
**Number of Coach: 1 mentor**

Hardware Requirements: **2022-23 MakeX Explorer Eco-Pioneer Competition Kit and Arena**  
Software Requirements: **mBlock 5**

**Category 3: MakeX Challenge Intelligent Innovator (Confrontation Mission – Based Competition)**

MakeX Challenge is a highly confrontational competition program for middle and vocational school students aged 11-18. This program is very confrontational and enjoyable to watch, and the simple and easy-to-understand rules enhance the overall experience of participation and engagement.

The design and construction of bigger robots and programming can better improve the contestants' design abilities and multi-dimensional thinking abilities of advanced robots. Also, the contestants are exercising logical thinking, strategic analysis, communication and cooperation, and improving decision-making abilities in the competition.

**Participant's Age Requirement: 11 – 18 years old**  
**Number of Participants: 4 students**  
**Number of Coach: 1 mentor**

**Hardware Requirements: 2020 MakeX Challenge Intelligent Innovator Competition Kit and Arena**
