

SUBJECT: "INVITATION TO ATTEND AN ONLINE WORKSHOP FOR CYBER SECURITY"

Dear Sir/Madam,

Greetings!

Yisrael Solutions and Training Center Inc is committed to the welfare of the country and the people. In line with the recent pandemic or the spread of COVID-19, the conduct of training classes or seminars/workshops all over the country has been temporarily postponed indefinitely until further notice to ensure the security, health, and safety of our countrymen. However, we have decided to continue our operations with virtual classrooms and remote work through the use of digital communication technology.

As an alternative option to face-to-face, we would like to offer you our online workshop, the online equivalent of being in a training room and learning together as a group through collaborative activities which will be conducted over the internet.

Cybersecurity awareness training is essential to reduce the risk that employees are exposed and tricked by sophisticated phishing or social engineering methods into serving unknowingly as entry points or worst, breach incidents that can affect organization information and data systems. This training could also help the company/agency to respond to a security breach and comply with the necessary notification requirements under the Philippine Data Privacy Act.

The primary objective of the security awareness program is to educate users on their responsibility to help protect the confidentiality, availability, and integrity of their organization's information and information assets. The participants will be able to know state-of-the-art information about Cyber Security, its importance, good practices, and its benefits to the organization. Participants can have a view of different phases of security threats: System Hacking, Malware Threats, Sniffing, Social Engineering, DDOS attacks, and How can they respond to them.

During the training, the speakers will also confer on Breach simulation briefing and simulation of attack and a Breach Notification Requirements of RA 10173, a deep discussion on breach notification requirements under the DPA and Circular 16-03, and additional information on RA 10175 "Cybercrime Act"

Participants will take their time to report the results of their investigation on the given breach simulation, both technical and compliance reports that is why we encourage you to form or create a Breach Response team (minimum number or three (3) or more participants) to be headed by the Data Protection Officer (DPO) to attend and participate on the "Breach Response Team Report.

While we are staying at home to help to control the spread of COVID-19, we are inviting you to attend our online workshop classes for Breach Response and Cyber Security Threats and Attacks. Our cybersecurity expert will give a discussion and demo about Cyber Threats and Attacks.
