Course Feedback

I really enjoyed the training and the trainer paced everything so well - I usually have a hard job writing as many notes as possible and get left behind - thanks for going at a nice steady pace. I really liked the process of engaging in stakeholders and how to categorise them - something I've never done, I've just labelled them all as stakeholders and managed them the same way - so I will 100% take that away from the day and be more methodical in my approach to stakeholder management. **Health Education England**

As we quickly moved into the subject it became apparent that this is something that is a lot more important than I may have given it credit for previously. The course definitely gave me awareness of the use of stakeholder management, and I feel far more confident in developing the skills and deploying the techniques revealed during the course. **UK Civil Aviation Authority**

Trainer's delivery is excellent and the material is highly relevant and applicable to my role/organisation. **Bryson Charitable Group**

The programme covered topics relevant to my training needs and was delivered in easily digestible chunks. The trainer provided good examples of stakeholder engagement in practice. I've come away from the training with some ideas to incorporate into my own engagement. **Professional Standards Agency**
