Subject: Invitation to attend an Online Workshop for In-Depth Privacy Impact Assessments (PIA) and Framework Controls Workshop

Dear Sir/Madam,

Greetings!

Yisrael Solutions and Training Center Inc. is committed to the welfare of the country and the people. In line with the recent pandemic or the spread of COVID-19, the conduct of training classes or seminars/workshops all over the country has been temporarily postponed indefinitely until further notice to ensure the security, health, and safety of our countrymen. However, we have decided to continue our operations with virtual classrooms and remote work through the use of digital communication technology.

As an alternative option to face-to-face, we would like to offer you our online workshop, the online equivalent of being in a training room and learning together as a group through collaborative activities which will be conducted over the internet.

Sections 4, 5, and 6 of NPC Circular 2016-01 require government agencies to conduct a Privacy Impact Assessment (PIA) for each program, process, or measure within the agency that involves personal data. At the same time, Section 6 of NPC Circular 2016-03 recommends the conduct of a PIA as part of any organization's security incident management policy. This Advisory shall apply to all natural or juridical persons, or any other body in the government or private sector engaged in the processing of personal data within and outside of the Philippines, subject to the applicable provisions of the DPA, its IRR, and other relevant issuances of the NPC.

In continuing the journey of compliance, each PIC should assess the risk and put the appropriate organizational, physical, and technical measures to ensure the security and protection of the data being processed. The modules to be discussed will educate the participants on how to conduct the Privacy Impact Assessment by means of reporting their own automated system on the workshop itself.

Day 1 of the workshop will be a discussion about the risk assessment principles of Privacy Impact Assessment (PIA). This session will provide participants guidance on applying the PIA principles using the information life cycle

The process within the agency or organization. Also, the participants will be able to do their own process flow using a case study and plan their own information process flow.

Day 2 of the workshop will tackle on Data Protection Controls. Participants will be able to know the basics of organizational controls such as Governance structures, Privacy templates, and managing third parties. The team will

present their draft Data Sharing and Activity (DSA)s based on the principles and privacy provisions on the consent forms.

Day 3 will be a presentation of each agency or organization of their draft PIAs to the group. Comments and suggestions are collected in order to improve the PIAs. At the end of the session, the team will present action plans to management and obtain sign-off using sample templates.

25 OCT 2023

YISRAEL SOLUTIONS AND TRAINING CENTER, INC.

Part of the workshop is the participants participated in the "pre-work assignment" by filling up the PIA template, and what the desired Systems they want to register with NPC. The system collects, processes, and stores personal and sensitive data. The requirement will be at least 1 to 2 systems per agency.

While we are staying at home to help control the spread of COVID-19, we are inviting you to attend our online workshop classes for In-Depth Privacy Impact Assessments (PIA) and Framework Controls Workshop. Part of the workshop is the participants participated in the "pre-work assignment" by filling up the PIA template, and what the desired Systems they want to register with NPC. A system that collects, processes, and stores personal and sensitive data. The requirement will be at least 1 to 2 systems per agency.

Below are the online workshop class programs/modules:
